GRADE 11 - PRESCRIBED RESOURCE

*THE STATE OF THE WORLD ATLAS*

AUTHOR(S): Michael Kidran and Ronald Segal

TOPIC(S): B - Global Problems of Population and Resource Distribution

LIST PRICE: \$15.55

PUBLISHER: Pan Books (Collins)

COPYRIGHT: 1981

COMPONENTS: One student text in soft cover containing 66 maps and notes.

CONTENT:

This atlas uses creative cartography and graphics to portray various forces that will shape world history in the eighties. It shows how unevenly the world's resources are distributed and exposes systematically the widening gap between rich and poor nations. It identifies areas of tension and pinpoints the sources of crisis around the world.

CONCERNS:

A popular activist orientation is reflected in some of the topics presented in this resource. Sensitivity is required in the treatment of these issues so that other points of view are given consideration.

CLASSROOM USE:

This resource should not be considered as an atlas in the usual sense of the term. This atlas may be used for all topics in the grade 11 and 12 programs. The resource lends itself particularly well to various inquiry tasks.

READING LEVEL: Grade 12/College.

PRESCRIBED STATUS GRANTED: 1983-84.

GRADE 12 - PRESCRIBED RESOURCE

*POLITICAL AND ECONOMIC SYSTEMS* (Revised Edition)

AUTHOR(S): T.L. Powrie

TOPIC(S): A - Political and Economic Systems

LIST PRICE: \$9.98 (approx.)

PUBLISHER: Academic Press Canada

COPYRIGHT: 1983

COMPONENTS: One student text in soft cover.

CONTENT:

This book is an updated version of a previous edition. The basic features of political and economic systems are identified and theoretical models illustrate and clarify the factual information. The book takes a value judgement/factual judgement/conclusion approach. It stresses that value judgements are based on a factual background and require a rational defence.

CONCERNNS:

Greater weight is placed on benefits of democratic systems of government rather than on other systems. While this is perhaps natural, other points of view could be introduced.

CLASSROOM USE:

Some supplementary material should be used with this book. For example, background material on socialism is required. Introductory material on Fascism prior to the use of the case study on Nazi Germany would be useful. A simple model of dictatorship would enhance student understanding. Finally a case study on the performance of the post World War II Japanese economy might prove to be very relevant for students.

READING LEVEL:

College. The format tends to compensate for reading level difficulty.

PRESCRIBED STATUS GRANTED: 1983-84.

## **Resources Under Development - Review**

New quality resources are continually identified and submitted for review to the Social Studies Learning Resources ad hoc Committee. As well, many potentially excellent resources are presently at various stages of the publishing process.

Following is a listing of grades and topics for which resources are either presently under review or are in manuscript form.

| Grade | Topic                                 |
|-------|---------------------------------------|
| 10    | Topic B                               |
| 10    | Topic C<br>(Kanata Kit Redevelopment) |

Many of these resources should be available to schools in the 1983-84 school year. Schools will be notified when these resources are authorized for use.

## **Important Notice: "Native People in the Curriculum" Report**

Due to financial challenges facing school boards at the present time, the Minister of Education has postponed the removal of three prescribed resources from authorized listings until June 30, 1984 (not June 30, 1983 as was previously communicated to schools). The three resources are:

Settlement of the West (Grade 4, Topic B)

Life in New France (Grade 5, Topic A)

Flashback Canada (Grade 8, Topic A)

These resources were found to contain serious deficiencies in their presentation of Native peoples and culture.

To assist teachers in making positive use of these resources for the next year, Alberta Education is preparing supplementary content and guidelines in cooperation with the respective publishers and representatives of the Native community. The supplementary guidelines will be distributed to all schools by September 1, 1983.

At this time, the publishers of Flashback Canada, Settlement of the West and Life in New France are working on revisions to their texts, and new versions should be published and available for use in classrooms in approximately one year's time. As well, Alberta Education is presently reviewing other resources which have the potential to replace the items that are to be delisted in June, 1984.

Several other resources have also undergone a change in status (either prescribed resources moved to recommended listings or recommended resources removed from listings) due to deficiencies in the presentation of Native peoples and culture. A list of these titles follows on pages 14 and 15.

## Prescribed Resources Moved to Recommended Listing

| Grade and Topic | Title                   | Publisher   |
|-----------------|-------------------------|---|
| 10 A/B/C        | <i>Canada Today</i>     | Prentice-Hall   |
| Rationale:      |                         | This resource was identified as having serious problems of stereotyping, bias and sins of omission in its presentation of Native peoples, history and culture. The failure to discuss the contemporary concerns of Native people trivializes earlier historical references.   |
| 10 B/C          | <i>Canada's Century</i> | McGraw-Hill Ryerson   |
| Rationale:      |                         | This resource was identified as having serious problems of stereotyping, bias and sins of omission in its presentation of Native peoples, history and culture. Information is presented which does not fully describe or explain situations from more than one point of view. |

These resources are still available for purchase from the Alberta School Book Branch. Schools receive a discount of 15% off the list price of RECOMMENDED resources. Please consult the new 1983-84 Price List and Order Form for ordering information.
